

## fa-newspaper-o

 · Unicode: flea · Created: v4.2 · Categories: Web Application Icons

After you get up and running ([../get-started/](#)), you can place Font Awesome icons just about anywhere with the `<i>` tag:

 fa-newspaper-o

```
<i class="fa fa-newspaper-o" aria-hidden="true"></i>
```

Note: to improve web accessibility ([../accessibility/](#)), we recommend using **aria-hidden="true"** to hide icons used purely for decoration.

 Looking for more? Check out the examples ([../examples/](#)).
